

Official journal of the Société Internationale de
Chirurgie Orthopédique et de Traumatologie (SICOT)

**Publishing open
access research
at the forefront of
orthopaedics surgery
and traumatology**

SICOT-J publishes original research and review articles, surgical techniques, case reports, letters to the editors as well as collections of 'hot topic' articles such as "Hip and Knee Replacement".

Author benefits:

- Double-blind peer review for objective evaluation
- High visibility through open access to content
- Retention of copyright by authors

Indexations include:

- DOAJ – Directory of Open Access Journals
- Emerging Sources Citation Index
- PMC – PubMed Central
- Scopus

International, expert Editorial Board
